## PROFESSIONAL SUMMARY

---

A dynamic and adaptable Clinical Engineer with a strong foundation in biomedical engineering and proven NHS experience. Currently serving as a Band 5 Clinical Engineer at Bedfordshire Hospitals NHS Foundation Trust, where I deliver preventative maintenance, calibration, fault diagnosis, and repair of a wide range of medical devices. Previously served as a Medical Equipment Library Engineer and Healthcare Support Worker at West Hertfordshire Teaching Hospitals NHS Trust, gaining valuable experience in both technical and patient-facing roles. Holding a Bachelor of Science in Biomedical Engineering from the University of Ghana, I combine technical expertise with a commitment to patient safety, quality improvement, and continuous professional development. I excel in collaborative environments, leveraging advanced technical proficiencies to support clinical teams and drive innovation in healthcare technology.

## EDUCATION

---

Bachelor of Science in Biomedical Engineering, University of Ghana, July 2020

## WORK EXPERIENCE

---

### ***Clinical Engineer (Band 5)***

Bedfordshire Hospitals NHS Foundation Trust | June, 2025 – Present

- Diagnose and repair faults in medical devices, undertaking electrical safety testing and commissioning/decommissioning equipment as required.
- Maintain accurate records in the medical equipment management database, ensuring traceability and regulatory compliance.
- Provide technical support to clinical staff, offering guidance on equipment use and escalating risks when necessary.
- Manage stock of components, oversee calibration of test equipment, and ensure alignment with the Quality Management System.
- Support the Medical Equipment Library by coordinating day-to-day activities and ensuring timely availability of equipment.
- Engage in continuous professional development, including attending OEM and specialist training courses to maintain technical expertise.

## ***Medical Equipment Library Engineer***

West Hertfordshire Teaching Hospitals NHS Trust | January, 2024 – May, 2025

- Conduct maintenance, servicing, and repairs on medical equipment, using advanced fault-diagnosis techniques to identify and resolve issues, ensuring compliance with manufacturer guidelines and safety standards.
- Maintain meticulous records of all activities, including equipment maintenance logs, updates in the equipment management database, and inventory tracking of components, while liaising with manufacturers for technical support and feedback.
- Enforce adherence to accredited Quality Systems, ensuring all operations meet regulatory requirements and health and safety standards.
- Provide training and guidance to healthcare professionals and technicians, enhancing their understanding of equipment operation and maintenance techniques.
- Support the development and optimization of equipment workflows and processes, contributing to the efficient management of the medical equipment library and ensuring timely availability of devices for clinical use.

## ***Healthcare Support Worker***

West Hertfordshire Teaching Hospitals NHS Trust | April, 2023 – January, 2024

- Provided compassionate and personalized care to patients, ensuring their physical and emotional well-being.
- Assisted patients with activities of daily living (ADLs) such as bathing, dressing, grooming, and feeding.
- Collaborated with nursing and medical staff to implement care plans.
- Monitor and record vital signs, promptly reporting any abnormalities to healthcare professionals.
- Assisted in patient mobility, transfers, and positioning to prevent pressure ulcers and maintain overall well-being.
- Maintained accurate and up-to-date patient records, documenting observations, interventions, and progress.
- Implemented infection control measures to prevent the spread of illnesses and maintained a clean and sanitized environment.

## ***STEM/STEAM Facilitator***

MakersPlace, Accra-Ghana | April, 2022 – December, 2022

- Successfully taught and facilitated at multiple Makers Place centers, contributing to the company's mission of promoting STEM/STEAM education.

- Assisted the Management Team in designing and developing STEM/STEAM curricula, resulting in engaging and effective learning experiences for students.
- Implemented a data-driven approach to measuring student learning outcomes and progress, leading to improved student performance and satisfaction.
- Developed and implemented innovative STEAM learning activities and materials that fostered hands-on learning and increased student engagement.
- Demonstrated cultural competence and sensitivity by attending to individual student needs and effectively communicating with parents about their child's progress.
- Provided extra support to students who needed it, resulting in improved student engagement and performance.
- Engaged in Continuous Professional Development and research initiatives, demonstrating a commitment to ongoing learning and professional growth.

### ***Technical Assistant (XRF)***

Sahara Natural Resources, Accra-Ghana | August, 2020 – March, 2022

- Conducted XRF analysis on various types of samples, including metals, alloys, and minerals.
- Prepared samples for analysis, including weighing, grinding, and pelletizing.
- Troubleshoot XRF instruments and laboratory equipment, repairing and replacing parts as necessary.
- Worked closely with clients and provided technical support and assistance when necessary.
- Participated in quality control and quality assurance processes to ensure accurate and reliable results.
- Adhered to strict safety procedures, quality control standards, and regulatory compliance requirements.
- Collaborated with other technicians and scientists to ensure that results meet project requirements

### ***Intern***

Bioinstrumentation Lab, University of Ghana | June, 2019 - August, 2019

- Assisted in conducting experiments and analyzing data in various research projects.
- Maintained laboratory equipment and ensured a safe working environment.
- Collaborated with other lab members to complete projects on time and within budget.

### ***Intern***

Mangel Klicks Company Limited | June, 2018 - August, 2018

- Assisted senior technicians in the repair and maintenance of medical equipment.
- Documented service activities in accordance with company policies and procedures.
- Conducted tests on medical equipment to ensure compliance with safety standards.
- Collaborated with the service team to resolve customer complaints and issues in a timely manner.

## SKILLS

---

- Ability to work in a fast-paced, team-oriented environment
- Proficient in Microsoft Office Suite (Word, Excel, PowerPoint)
- Proficient in CAD software (e.g. SolidEdge)
- Effective Prioritization of Tasks
- Excellent written and verbal communication skills
- Strong problem-solving and critical thinking skills
